

Love and peace

Love and peace, a clearer understanding of life,
Now I can see the way things are meant to be
A vision that's so clear, will carry on throughout the year
Will carry on regardless, life itself is marvellous

Love and peace, must come from within love and peace but never without you

Instrumental

Love and peace lets get this world on its knees, share our food that feeds us
across all this insanity
Peace on earth don't you want it, just like I want it too, educate the leaders to
realize, government, politics, red tape all disguise don't call it third world lets
just call it one, then the wheels in motion, will have begun

Love and peace & peace and love
Peace and love & love and peace,
Love and peace & peace and love
Peace and love & love and peace,
Love and peace & peace and love
Peace and love & love and peace,
Love and peace & peace and love
Peace and lo-o-ove
